TU5300sc Low Range Laser Turbidimeter, EPA Version

Product #: LXV445.99.10112
CAD Price: Contact Hach
Available

The next standard in the evolution of turbidity

The EPA approved TU5 Series platform employs a unique optical design that sees more of your sample than any other turbidimeter, delivering the best low level precision and sensitivity while minimizing variability between measurements. For the first time you will be able to remove uncertainty of which measurement to trust between your lab and process instruments, thanks to identical 360° x 90° Detection Technology in any TU5 Series turbidimeter.

The TU5300sc Low Range Laser Turbidimeter dramatically reduces the time needed to get a turbidity measurement you can rely on. A stable laser light source eliminates the need for annual lamp replacements. The turbidimeter’s measurement surface area has been reduced by 98%, allowing you to save time cleaning. An automatic cleaning module is available that keeps your instrument clean, reducing the amount of time spent cleaning the instrument ever further. All of this, along with the ability to measure to 2 mNTU, gives you the next standard in the evolution of turbidity.

Only the new TU5 Series Lab & Process Turbidimeters with 360° x 90° Detection deliver unprecedented confidence that a change in your reading is a change in your water.

Groundbreaking 360° x 90° Detection Technology
The TU5 Series employs a unique optical design that sees more of your sample than any other turbidimeter, delivering the best low level precision and sensitivity while minimizing variability from test to test.

Matching lab and online results
For the first time you will be able to remove the uncertainty of which measurement to trust, thanks to identical 360° x 90° Detection Technology in both instruments.

Everything about turbidity – faster
The TU5 Series dramatically reduces the time needed to get a turbidity measurement you can rely on, with 98% less online sample surface area to clean, sealed vials for calibration, and the elimination of the need for indexing and silicone oil in the lab. Not to mention, a smaller online sample volume means you will detect events almost immediately.

No surprises
Prognosys monitors your TU5 Series online instrument, proactively alerting you to maintenance needs before your measurement becomes questionable. And a Hach Service Agreement protects your investment and helps ensure that you stay in compliance and on budget.

Specifications

Accuracy: ±2% or 0.01 NTU from 0 - 40 NTU
±10% of reading from 40 - 1000 NTU based on Formazin primary standard

Cable Length: 1.6 m (5.25 ft), extendable up to 50 m (164 ft) for instrument without accessories

Calibration Method: For Formazin and Stablcal:
20 NTU from 0 to 40 NTU; at 20 FNU and 600 NTU for full range
Custom calibration for up to 6-point calibrations

Certifications:
CE compliant
US FDA accession number: 1420493-000 EPA version, 1420492-000 ISO version
Australian ACMA Marking
Channels: NA
Communication: None
Compliance: EPA
Controller: Sensor Only
Controller Options: Sensor Only
Dimensions (H x W x D): 249 mm x 268 mm x 190 mm
Enclosure Rating: Electronic compartment IP55; all other functional units IP65 with process head/ACM attached to the TU300sc/TU5400sc instrument
Fitting type: Sample quick connector: ¼-in. for ¼-in. tubing
Instrument: Standard cable and process head
Light source: Class 2 laser product, with embedded 650 nm (EPA 0.43 mW) or Class 1 laser product, with embedded 850 nm (ISO), max. 0.55 mW (complies with IEC/EN 60825-1 and to 21 CFR 1040.10 in accordance with Laser Notice No. 50)
Lower Limit of Detection (LOD): 0.002 NTU
Material: ASA Luran S 777K / RAL7000, TPE RESIN Elastocon STK40, Thermoplastic Elastomer TPS-SEBS
Model: TU5300sc
Mounting Configurations: Wall Mount
Operating Humidity: Relative humidity: 5 - 95% at different temperatures, non-condensing
Operating Temperature Range: 0 - 50 °C
Options: Process Head Only
Power requirements (Voltage): None
Range: EPA:

0 - 700 NTU / FNU / TE/F / FTU

0 - 175 EBC
Region: Global
Regulatory: EPA
Repeatability: Better than 1% of reading or ±0.002 NTU on Formazin at 25 °C (77 °F), whichever is greater
Resolution: 0.0001 NTU / FNU / TE/F / FTU / EBC
Response Time: T90 <45 seconds at 100 mL/min
Sample Flow Rate: 100 - 1000 mL/min; optimal flow rate: 200 - 500 mL/min
Sample Pressure: 6 bar maximum, compared to air at sample temperature range from 2 - 40 °C
Sample Temperature: 2 - 60 °C
Signal Average Time: 30 - 90 seconds
Storage conditions: -40 - 60 °C
Stray Light: <10 mNTU
System Check: None
Units: NTU, FNU, TE/F, FTU, EBC
Verification: Liquid: Stablcal, Formazin (0.1 - 40 NTU)
Dry: Glass Rod at <0.1 NTU
Warranty: 1 year
Weight: 2.7 kg (5.0 kg with all accessories)
What's included?

TU5300sc Turbidimeter, User Manual, Wall Mount, Vial Replacement Tool, Screw Set, Drying Cartridge, Flow Regulator, Service Bracket
